Data Flow

Private Users

- All are registered users
 - Have account
 - Working Group members, techs, interns, or volunteers
- Enter data through database website
- Data not reviewed before entering production table
- Access to data via search
 - Can add levels of access to private user accounts in search and record editing functions
- Subject to data sharing agreement

Public Users

Non-Working Group members

Unregistered Public

- Use Working Group website form to report
 - Do not have account
- Data goes to quarantine table
- Receive e-mail with bird's history when record is accepted into database
- Will be informed of possibility of registering

Registered Public

- Use Band Database website to report
 - Have account
- Data goes to quarantine table
- Can view all records for birds they submitted on the My Oystercatchers page
- Cannot search all records or edit or delete records

Database Functions

• Enter data

- Captures, recaptures, resightings

?

- Location, observer, breeding status
- Limited other data

Additional Information

Age:
Sex:

Culmen:
(mm)

Tarsus:
(mm)

Wing:
(mm)

Weight:
(grams)

?

hide or unhide

Sites and Locations

Cape Fear River

Ferry Slip Island

Database Functions

• Search data

- All entered criteria searchable
- Three display options
 - Database (table or single record), Google Earth, F

Upcoming Features

- Re-launch public form
- Launch registered public function and My Oystercatchers
- Additional improvements to enter function

 Improve process, more checks
- Site and location kml files for each state
- Photo search option
- Add more data
 - All "backload" data is checked as well as formatted before entering database

Website Address

www.ancperch.org/amoy/index.html laddison@audubon.org

A database for everyone will completely satisfy no one.

Discuss or Follow-up

• Levels of use for registered private users

Now all can edit and delete records, add new records, and search all records

• Questions or comments about website

• Suggestions for additional functions or improvements to the band database
