

2021 Meeting of the American Oystercatcher Working Group

The annual Working Group meeting for the 2021 field season will again be held virtually **Nov. 30-Dec. 3, 2021, 9am-1 pm EST** daily. While we cannot yet meet in person, we were thrilled by the number of people last year's remote meeting allowed to attend, and we are looking forward to more people engaging in this year's meeting as well. We look forward to seeing your faces and hearing your voices over Zoom!

Topics and discussion will be relevant to site managers, field biologists and technicians, researchers, students, individuals working on habitat restoration and enhancement, and shorebird volunteers and enthusiasts. We hope that the remote format will allow for broad attendance and participation around the range.

The entirety of the meeting will be recorded and available after the meeting. If you may not be able to attend all or part of the meeting in real time, but would like to have access to these recordings, you should still register for the meeting.

Cost

There will be a \$30 registration fee to help accommodate website and banding database maintenance. Payment online is by credit card or bank account. If you need to pay by check, email lindsay.addison@audubon.org.

Registration

Please follow this [link](#) to register for the meeting. A Zoom link will be emailed to you with your confirmation. Direct any questions to lindsay.addison@audubon.org.

Meeting Format

We may have time for additional presentations! If you are interested in presenting your work, please reach out to sschulte@manomet.org.

State updates and some session presentations will need to be recorded ahead of the meeting date, by Nov. 24. These will be played for meeting attendees, with live Q&A sessions with the presenters to follow. Instruction for recording your presentations will be provided on the website and via email to presenters.

Agenda

A draft agenda can be found in the sidebar on the left of this page.
